

## **PURPOSE**

The purpose of this conference is to inform nurses about strategies for clinical inquiry that can be applied to improve patient outcomes.

## **OBJECTIVES**

1. Describe how the process of clinical inquiry leads to improved patient outcomes.
2. Describe considerations for conducting research with vulnerable populations
3. Identify IRB requirements for research, evidence-based practice, and quality improvement.
4. Identify strategies to support data management

## **Consultation**

Individual or small group consultation will be available to attendees who have specific questions related to their own clinical inquiry project. These sessions will be held during the concurrent sessions in the afternoon and must be arranged prior to the conference. To request a consultation please complete the consultation fields on the registration form.
